OstlandStr 40, Köln 50858, Germany

EXPERIENCE

Full-Stack Developer

Meetingmasters.de

- 12/2023 - Present Cologne, Germany
- Migrated legacy frontend systems to Angular, improving scalability and user experience through reusable components aligned with modern design standards
 - Engineered RESTful APIs using Java/Spring Boot for participant management, enabling seamless third-party integrations and GDPR-compliant data handling
 - Collaborated with UX/UI designers to deliver responsive interfaces, reducing client-reported issues by 30%
 - Optimized SQL databases achieving 40% faster query performance during high-profile events
 - Conducted comprehensive unit and integration testing ensuring 99.9% application uptime

Software Developer

Imc-ag

- 01/2022 - 07/2023 Saarbrücken, Germany
- Developed features for learning management platform using Angular and Java, reducing production bugs by 14%
 - Led code reviews and performance tuning initiatives, improving runtime efficiency by 98%
 - Served as Team Lead, guiding sprint planning and fostering cross-functional collaboration

Developer (Working Student)

Sap

- 11/2020 - 10/2021 Walldorf, Germany
- Built cloud-deployed training web application using low-code tools (Mendix), integrating backend microflows for real-time data processing
 - Collaborated with stakeholders to refine UX workflows for 200+ user prototype

Software Engineer

Hathway

- 04/2018 - 09/2019 Pune, India
- Delivered Spring Boot-based microservices, reducing API response time by 25%
 - Implemented peer-reviewed code practices, achieving 95% test coverage

Software Engineer

SSP Technology

- 03/2017 - 03/2018 Pune, India
- Automated client management systems using Java EE
 - Reducing manual effort by 50%

SUMMARY

Full-Stack Developer Experienced Full-Stack Developer with 5+ years of expertise in Angular, Java, and Node.js. Specialized in designing scalable web applications, modernizing legacy systems, and building RESTful APIs. Proven track record of collaborating with cross-functional teams to deliver user-centric solutions with strong focus on UI/UX design, agile methodologies, and performance optimization for high-traffic environments.
